group heard an address by Frank E. Jorgensen, chairman of the Republican Central Committee of Los Angeles County, who urged continued party unity and activity during the coming months to assure a greater majority in the House of Representatives in 1954. He said that the vote in the last election, when Robert H. Finch proved a close contender for the Congressional office now held by Rep. Cecil King, shows that the job can be accomplished. Finch was present, and addressed the group in the informal session following the meeting.

The Central Committee delegation agreed to sponsor a Lincoln Day dinner during the week of Feb. 9, and a committee was appointed to arrange the affair, consisting of Mrs. Eleanor L. Lock, chairman of the 67th Assembly District delegation; Frank S. Selover, chairman of the 68th District delegation and secretary of the 17th Congressional district group; and Dr. Warren E. Thornburgh, chairman of the 46th District delegation.

Also addressing the group were Assemblyman Charles E. Chapel, of the 46th Assembly district, and E. Charles Forde, candidate on the

Westons Nix City Offer On Property

Negotiations to settle the city's acquisition of the Weston property in South Torrance hit a snag last week, according to City Attorney James M. Hall.

The city condemned the land and commenced the construction thereon of a ten million gallon water reservoir.

The exact purchase price of the land, however, has not been agreed upon as yet.

Hall disclosed this week, after meeting with legal representatives of the Weston family, that negotiations to determine a purchase figure have bogged down, and it may be necessary to ask the courts to name the price.

The Weston interests are asking \$39,000. The city is offering \$14,000, Hall stated.

He declared that the city's estimate of value and the Weston's estimate were so far apart that the city would very likely request a re-appraisal.

Plan Construction Of Swim Pools Near Jr. College

The dual indoor-outdoor swimming pools to be built near Harbor Junior College may get under way within a year, it was indicated this week.

Construction of the aquatic facility has been delayed because of the federal government's ban on the building of pools and other recreation structures.

The pools are being built as a joint project of the Los Angeles City Recreation and Park Commission and the Board of Education, it was reported.

The facility will be used for the Board of Education's swimming instruction program and for the Recreation and Park Department's summer "Learn-to-Swim" campaigns for children. It will also be used for recreational swimming for both children and adults of the harbor area.

A contract between the two Los Angeles agencies was extended until March, 1954, by which time construction is expected to be under way.
